Work experience

2013 – 2015 <i>Salt</i>	GILOGIC I did a 350 hour long internship in Gilogic, which is a company specialized in mobile application and website development. My main task there was to learn how the world of work is, specifically in a company in the field of application development and design, one in the many sections in informatics which I especially enjoy working in. <i>Reference: Jordi Gili, Manager (+34 658 80 16 61)</i>
2017 – 2018 <i>Girona</i>	Sixtemia Mobile Apps Studio I did a 317 hour long internship in Sixtemia, which is a company specialized in mobile application development. My main task there was to work in the quality department, which is the one responsible for testing that the applications work in the correct way.
